

# PC Softphone

*Hosted White Label Solutions for VoIP Service Providers*

## A Windows-Based Softphone for your Customers

Telinta's brandable softphone for Windows is an impressive SIP softphone solution for VoIP service providers. The phone can be customized for you and your resellers with your choice of skins, your own logo and brand. Telinta's softphone solution includes two customizable buttons that you can define for important end user functions such as browsing Call Detail Records (CDRs), logging into the account self-care interface to make payments and more.

TeliCore™ is our robust carrier-grade platform, integrating Telinta's cutting-edge VoIP solutions with world-class Switching and Billing capabilities from PortaSwitch. With Telinta's highly-customizable white label solutions, you and your resellers can offer a full range of services, all under your own brand.

Cloud-based, rapid deployment,  
with no capital investment
