News Flash

Telinta To Exhibit At ITW 2016

Telinta will exhibit at this year's International Telecoms Week (ITW) in Chicago, May 9-11. With over 6,000 executives, entrepreneurs and business owners from telecom companies in 150 countries, ITW is one of the world's most prestigious industry events.

Telinta will demonstrate its cloud-based TeliCore™ softswitch platform in ITW's main exhibit hall. In previous years, these demonstrations were extremely well-received.

In addition, we will launch important news at ITW, announcing new partners and new technology enhancements. Please check Telinta's online [Newsroom](#) for daily updates during the show.

Solutions

Integration of TeliGlobe™ and Virtual Office.

Telinta is constantly improving its hosted VoIP solutions with a steady stream of innovation. Recently, we integrated our TeliGlobe mobile softphone and our award-winning Virtual Office solution.

Integration of TeliGlobe™ and Virtual Office, continued:

TeliGlobe is a brandable mobile softphone application for both iOS and Android. Virtual Office, used by thousands of end users around the world, enables your customers to tailor their own VoIP solution, without needing IP phones. Your customers can easily route Virtual Office inbound calls to their mobile softphone. Outbound calls made via the mobile softphone can use the Virtual Office DID as Caller ID. TeliGlobe and Virtual Office enable you to offer a powerful service bundle, helping to increase your profits and win new customers.

Please contact support@telinta.com to learn more about these services.

Best Practices

New Auto-Provisioning Profiles for VTech VCS754, VSP600, VSP725, VSP735

Initial configuration of IP phones is extremely important for proper performance and to avoid problems at the customer premise.

Telinta has created many Auto-Provisioning Profiles which enable our customers to automatically provision and update any number of end-user devices directly from Telinta's TeliCore Administrative Interface without the need for manual configuration. Most recently, Telinta created Auto-Provisioning Profiles for IP phones made by VTech - the #1 manufacturer of cordless phones in the world, with over 20 years of experience and 41 million handsets shipped.

VTech IP phones allow you to choose the best fit for any type of business. VTech phones offer premium intuitive design, crystal clear voice quality, multiple programmable feature keys, Power over Ethernet and more.

Your opinion counts.
