Telinta to Participate at ITEXPO.

ITEXPO is one of the VoIP industry's premier events, bringing together thousands of professionals from all over the world.

Telinta will exhibit again at this year's event. In the show's main Exhibit Hall, Telinta will demonstrate its cloud-based switching and billing solutions, answer questions, and help VoIP service providers to learn more about our platform.

As industry leaders, Telinta was again invited to speak at ITEXPO. This year, Telinta will lead an important session entitled "*Cutting Edge Cloud-based Solutions for VoIP Service Providers.*" Speakers will include executives from two of our partners, Inteliquent and Acrobits.

At the event each year, Telinta announces news about our solutions and capabilities, new partners, and more. This year will be no exception. Please check Telinta's online news regularly for updates, both during ITEXPO and throughout the year.

Events like ITEXPO are wonderful opportunities for Telinta to meet face-to-face with our customers, partners, and friends. This year's ITEXPO event will take place in Fort Lauderdale, Florida on February 12-14, 2020.

Solutions

DID APIs: An Important Part of your Business.

Telinta understands how important DID APIs are for your business. That's why we have integrated many industry-leading partners into our TeliCore™ platform.

We recently integrated two additional DID APIs for thinQ and Endstream Communications. We have also integrated new versions of DID APIs for DIDWW (version 3) and Bandwidth (version 2).

To add a DID API to your Telinta environment, please contact us at: support@telinta.com

Solutions (continued)

DID APIs: An Important Part of your Business.

A full list of supported DID providers is available in our KnowledgeBase.

DIDWW
Local. Global. Simple.

More Solutions

SMS Integration: Endstream Communications

Telinta also integrated Endstream Communications SMS capabilities.

You can use SMS from Endstream for things like billing notifications, password resets, two–way communications between your end users, and more.

To find out more about Telinta's SMS capabilities, please contact us at: support@telinta.com

You can read more about SMS in our KnowledgeBase.

Your opinion counts.
