July 2020 EDITION

More Solutions

Updated API for Bandwidth DIDs.

Telinta's cloud-based softswitch platform is integrated with several leading DID providers. Recently, we integrated a new API enabling our customers to easily use Bandwidth's high-quality DIDs and Toll-Free numbers for the US, Canada, and Caribbean. In addition to DIDs, Telinta customers can use Bandwidth's services for E911 and VoIP Termination. Contact partners@telinta.com to learn more.

bandwidth

New Auto-Provisioning Profile for GrandStream GXV3370.

Now more than ever, video calling has quickly become an integral part of doing business.

Telinta recently developed a new Auto-Provisioning profile for the Grandstream GXV3370 video-enabled desktop phone. You can easily provision this, and hundreds of IP devices, from your TeliCore Administrative Portal.

Contact partners@telinta.com to learn more about special pricing for Telinta customers on the GXV3370.

News Flash

Emergency Services Integration: Bulk Solutions.

In many countries, ITSPs may be required by local authorities to provide emergency services (such as E911). Our TeliCore™ platform is integrated with several industry leading third-party providers of Emergency Services. The most recent API addition is for [Bulk Solutions](#).

In addition to Bulk Solutions, Telinta's platform is integrated with other Emergency Services providers such as Bandwidth, Inteliquent, Intrado, 911 Enable, Netstream, Telinet, Vitelity, and VoIP Innovations.

Please contact support@telinta.com to learn more about enabling an Emergency Services provider for your Environment.

Best Practices

Sending SMS receipts from Distributor Interface.

Our Distributor Interface is a brandable, customizable portal which enables you and your resellers to process retail transactions. Telinta recently added a new capability, enabling brandable receipts to be sent to end users via SMS using a predefined template. Receipts can be sent in multiple languages.

Please contact info@telinta.com for more information.
