#### **MORE SOLUTIONS**

New Auto-Provisioning Profiles for Alcatel-Lucent Enterprise DeskPhones.

## Issue N°38

## October 2020 EDITION

### News Flash

#### **IDT Express DID API Integration.**

Telinta recently added an API enabling our customers to more easily use IDT Express DIDs in more than 70 countries. In addition to DIDs and toll-free numbers, IDT Express also offers A-Z VoIP Termination to service providers around the world.

For more information please contact [partners@telinta.com](mailto:partners@telinta.com) for an introduction to IDT Express.

If you are an existing IDT Express customer and would like to enable the API for your Environment, please contact Support.

### Best Practices

#### **Account search filter on Customer Self-Care Interface.**

Telinta recently enhanced our self-care interface by adding a new search field, enabling Telinta customers to search for specific accounts or batches of accounts.

For example, by entering 1234 into the search field, all accounts with 1234 in the account number will appear in the search results.

Please contact Support for more information.

## Solutions

### Fanvil IP Phones, Automated Provisioning, webinar, and more.

Telinta recently developed Auto-Provisioning Profiles for several popular Fanvil IP devices: X7, X210, the XU series, and the PA2 paging gateway.

Fanvil and Telinta will join forces for a unique webinar to educate Internet Telephony Service Providers (ITSPs) on how the two companies can help their VoIP business.

Fanvil will discuss its line of high-quality IP phones and other devices, and Telinta will discuss its award-winning hosted softswitch and billing platform.

Date: November 5, 2020

Time: 1:30pm US Eastern Standard Time UTC/GMT: -5 hours

Telinta customers may qualify for a special promotion on Fanvil devices.

For details, please contact: [partners@telinta.com](mailto:partners@telinta.com)
