Solutions

MMS for WebRTC

Telinta's brandable WebRTC solution enables VoIP service providers to offer both inbound and outbound VoIP calling via a convenient multi-language self-serve web-based portal, without the user needing to install software.

In addition to features currently supported, (such as call transfers, placing calls on hold, SMS and free on-net messaging, phonebook, call history, and more) Telinta has added MMS capabilities. VoIP service providers can also offer optional features to their WebRTC users such as voicemail, call forwarding, multiple DID's, and other capabilities.

As an additional solution, WebRTC also comes with a brandable Desktop Softphone application for Windows, Mac, and Linux at no additional charge. Non-brandable versions are available for free.

Telinta currently has a special promotion offering all three of our brandable Softphone solutions (Mobile, Desktop, and WebRTC) for a reduced monthly price.

Please contact info@telinta.com for more information.

More Solutions

In-App Signup for Mobyx

Mobyx is a Mobile Softphone solution for both Apple iOS and Android devices, enabling you to participate in the fast-growing market for Mobile VoIP. This cloud-based mobile softphone can be downloaded for free by your end users from both Apple iTunes and Google Play.

In addition to our existing online sign-up capabilities, Telinta recently added a simple, user-friendly signup within the Mobyx app itself. The user can download the app from the app stores, and then open an account with you directly from the app.

Telinta customers already using Mobyx can learn more about this feature by contacting support@telinta.com and Telinta customers considering adding Mobyx can contact info@telinta.com for pricing info and more details.

Payment Provider Integration: First Atlantic Commerce

Online payments and credit card processing provide a quick, convenient, and secure way for your end users to pay for the services you provide. Telinta has integrated dozens of online payment processors from around the world.

Recently, Telinta integrated a new payment provider specializing in the Caribbean and Central America: First Atlantic Commerce.

Please contact support@telinta.com for more information on how to use payment processors.
