WebRTC

Hosted White Label WebRTC Solution for VoIP Service Providers

Enter the Fast-Growing WebRTC Market

With Telinta's brandable WebRTC solution for VoIP service providers, you can enable your customers to make and receive calls using their web browser. WebRTC is fully integrated with Telinta's robust portfolio of VoIP solutions, so that you can offer WebRTC as a stand-alone service or as part of a bundle of services.

TeliCore™ is our robust carrier-grade platform, integrating Telinta's cutting-edge VoIP solutions with world-class Switching and Billing capabilities. With Telinta's highly-customizable white label solutions, you and your resellers can offer a full range of VoIP services in addition to WebRTC all under your own brand.

Cloud-based, rapid deployment,
no capital investment
