

# Easy-to-Use Hosted PBX

Hosted White Label Solutions for VoIP Service Providers

## Offer Hosted PBX via an Intuitive Drag-and-Drop Interface

Telinta and DIDWW have teamed up to offer an easy to use Hosted PBX solution for VoIP service providers. phone.systems™ is a fully-featured, cloud-based virtual PBX solution from DIDWW, integrated with Telinta's softswitch and billing platform. This unique PBX solution enables you to configure your services via an intuitive drag-and-drop interface. Your configurations are instantly active once you set them up, enabling you to provide faster service to your end users.

The solution is specifically designed to interconnect with any service provider for VoIP Origination and Termination, and requires no special hardware to purchase and maintain. phone.systems™ can be offered on a stand-alone bases, or can easily be integrated with any of Telinta's white label solutions.
