News Flash

New Online Payment System: Bambora.

Online payments provide a quick, convenient, and secure way for your end users to pay for the services you provide. TeliCore has integrated many online payment processors from around the world. A full list of supported payment providers is available in our KnowledgeBase.

Recently, Telinta engineers integrated a new popular payment system - Bambora.

Today, Bambora helps over 126 000 merchants in 65 countries all over the world with their daily payments. Despite the size, Bambora is still a challenger within the payment industry. The company is always looking for new ways of making life for merchants a bit easier, regardless of how big your business is, or if you are based online or in-store.

Since 2017, Bambora is part of Ingenico Group, one of the world's biggest payment companies.

Please contact support@telinta.com to learn more about online payments.

Solutions

New SMS Provider supported by TeliCore.

SMS notification is a quick and easy way to keep your customers informed about various events such as password resets and billing notifications. TeliCore has integration with many SMS providers around the world. A full list of the SMS providers is available in our Knowledgebase.

Recently, Telinta engineers integrated a new SMS provider - <u>Intico</u>. Since 2005, Intico has been helping companies to achieve their goals with innovation and tech.

Please contact support@telinta.com to learn more about SMS notifications.

Solutions

New Provider Supported by DID API.

Telinta <u>believes</u> that APIs are the way to do business. TeliCore is integrated with wide variety of services, including DID Providers, Tax solution providers, Mobile Top-Up, SMS, Voice to text, CNAM, E911 and many others. This allows Telinta customers to have easy access to <u>multiple services</u> from the same platform.

Many Telinta customers use DID APIs to order and assign DID numbers via the TeliCore web interface with just a few mouse clicks. Telinta keeps expanding its ecosystem of partners. We are happy to announce that thinQ has been added to the list of supported DID API providers:

thinQ - https://www.thinq.com/

Headquartered in Raleigh, part of North Carolina's booming Research Triangle Park, thinQ offers an innovative Cloud Communications Platform that includes cost-effective VoIP Origination for the US and Canada, A-Z VoIP Termination, Least Cost Routing (LCR), Disaster Recovery, Messaging (SMS/MMS), and other VoIP solutions. Their energetic team of thinQers fuses the skill, industry experience and vision that is pioneering the telecommunications industry. Visit thing.com to learn more.

Please contact support@telinta.com to learn more about this service and enable it for your partition. If you are not already a thinQ customer, we would be happy to introduce you.

Your opinion counts.
