Integration: PagoAgil

Issue N°35

October 2019 EDITION

Solutions

Peerless Network DID API Provider Integration.

Telinta enables our customers to use any VoIP Termination carriers and DID providers they need, as many as they need.

Our engineers have recently added a convenient API enabling Telinta customers to easily use [Peerless Network](#) as a DID provider for telephone numbers in the US, Canada, and the UK.

Peerless Network provides:

- ▶ Phone numbers reaching over 85% of the US population
- ▶ Diverse network coverage
- ▶ CNAM
- ▶ Vanity numbers
- ▶ Market-driven rates

To add the Peerless API to your Telinta environment, please contact us at: support@telinta.com

Best Practices

New Auto-Provisioning Profiles for Grandstream 2613, 2614.

Telinta offers unique Auto-Provisioning Profiles, enabling VoIP service providers to easily deploy any number of IP phones, ATAs, and other devices, without needing an installer or manual configuration.

Best Practices (continued)

New Auto-Provisioning Profiles for Grandstream 2613, 2614

These Auto-Provisioning Profiles which enables you to easily provision devices directly from Telinta's TeliCore™ Administrative Interface.

Recently, Telinta created Auto-Provisioning Profiles for two additional Grandstream models 2613 and 2614. Just add these devices to your IP Phone Inventory, and once the phones are connected to an IP network at the customer premise, they will automatically connect to Telinta's cloud-based softswitch platform to instantly download a complete configuration profile. This makes deployments of any size fast, easy and error-free.
